SUMMARY

Forward Deployed Software Engineer with strong experience partnering with clients to design, build, and deploy scalable systems in production environments. Combines hands-on expertise in distributed systems with the ability to translate business requirements into technical solutions and guide stakeholders through implementation, testing, and go-live.

EXPERIENCE

Forward Deployed Software Engineer

Oct 2024 - Present

DMW&H

Fairfield, NJ

- Led on-site deployments for 4+ enterprise clients, guiding operations and IT staff through system setup and workflow adoption, reducing downtime by 40% and accelerating go-live timelines.
- Translated complex operational requirements into scalable .NET microservices with Kafka and SQL Server/MongoDB integrations.
- Facilitated technical discovery sessions and documented operational workflows, ensuring technical implementations and designs aligned with business goals.
- Built real-time product scanning dashboards using Angular, SignalR, and .NET, providing clients with sub-second visibility into 10,000+ items daily.
- Optimized CI/CD pipelines with Docker registry and layer caching, reducing deployment times from 30 to 3 minutes (90% reduction), enabling more rapid feature validation and release cycles.

Software Engineer Intern

Feb 2024 – Sep 2024

BeeEnrolled

Remote

- Collaborated with cross-functional stakeholders to develop features for an e-learning platform using Vue, Laravel, and MySQL within an MVC architecture.
- Implemented dynamic Open Graph metadata generation to improve SEO and link previews, increasing user engagement and platform visibility.

PROJECTS

AI PDF Analyzer | *TypeScript, Next.js, AWS S3, PostgreSQL, Pinecone*

Sole Developer

- Designed and built a fullstack application enabling users to upload and interact with documents through AI-driven insights.
- Implemented Retrieval-Augmented Generation (RAG) pipelines using vector embeddings and similarity search to power intelligent document querying.

TECHNICAL SKILLS

Languages: C#, TypeScript, SQL, Python, Java

Frameworks: .NET, Node.js, Angular, React, Next.js, Vue

Technologies: Docker, Kafka, Linux, MongoDB, CI/CD

Tools: Git, GitHub Actions, xUnit, Jest, Postman, Swagger

EDUCATION

Farmingdale State College

Farmingdale, NY

B.S. Computer Science, Magna Cum Laude, GPA: 3.83

Aug 2024

CERTIFICATIONS

- **Microsoft Azure Fundamentals (AZ-900)**
